

Partners

The people that make this happen!

With the generous support of our partners and sponsors we are able to keep DropIN a free, sector owned collaboration solution for all community organisations. Thank you!

Want to give back? Currently, DropIN is the only purpose build system that helps NFPs organise, share and manage their projects and initiatives. By doing this, DropIN helps organisations in the community sector do more with less. Show that your organisation is committed to an innovative, efficient and sustainable community sector and become a DropIN supporter today.
